

## RUSTIC EDGE

"Simple lines and a mix of materials add a contemporary touch to a classic kitchen look. The home's rustic character and ample natural light provided a great base to work from. We paired the white elegance of the cabinetry with granite benchtops to add visual texture and balance. Natural colours pop against the pale tones. Illuminated by downlights, the kitchen island delivers a dramatic focal point. Oak timber flooring grounds the island and sleek minimalist lights complete the look. To cater for the owners' love for cooking, we designed a dedicated scullery and cooking nook with sauces and spices easily on hand."
