

*We love the butler's pantry that provides extra bench space without the clutter.*

**EXPERT TIP**  
Awkward right angles need cabinetry to conceal structural rigours.

## ARTISTIC CHARM

"An unusually shaped kitchen needs a little more attention and a clever design to make it the best it can be. The roof consisted of irregular compound angles, along with an unusual-shaped wall, which made the room a little more challenging to work with than most. To combat this, a clever LeMans blind corner unit and ample overhang on the island bench maximises storage, workspaces and eases navigation around the room.

Neutral tones help the kitchen feel spacious and are a welcome change from the original sage green, which was quite out-dated. The warmth of the Zebrano reconstituted veneer ties in with the window frames and complements the high-gloss alabaster finishes. The glass splashback from DecoGlaze perfects the design.

A chef's pantry with a sliding door keeps things looking neat and tidy, and is a highly functional option for a kitchen this size and shape.

Requests for help swiftly turned into gasps of joy, and this delightful kitchen transformed how the family lives and entertains."

**Designer: Richard Cripps for Kitchen Link**
